

NPTEL Online Certification Course
Design & Implementation of Human-Computer Interfaces

Assignment 1: Detailed Solution
Indian Institute of Technology Guwahati

1) While we talk about the evaluation phases of the computer, _____ is called the modern age of computers.

- a. 1985 onwards
- b. 1998 onwards
- c. 2007 onwards
- d. 2011 onwards

Ans: 2011 onwards

2) Which among the following is NOT a generic category of users? (1 point)

- a. Novice
- b. Super knowledgeable
- c. Intermittent
- d. Expert

Ans: Super knowledgeable

3) In the Spiral Model, why is the second quadrant crucial for interactive software development? (1 point)

- a. It defines the UI layout
- b. It finalizes the system architecture
- c. It identifies and mitigates usability risks via prototyping
- d. It handles testing and deployment

Ans: It identifies and mitigates usability risks via prototyping

4) What does the term 'utility' refer to in the context of usability? (1 point)

- a. Speed of task completion
- b. Visual appeal of the design
- c. Functional support for user needs
- d. Frequency of feature updates

Ans: Functional support for user needs

5) Which one of the following is NOT a computer? (1 point) (1 point)

- a. Desktop
- b. Digital Pedometer

NPTEL Online Certification Course
Design & Implementation of Human-Computer Interfaces

Assignment 1: Detailed Solution
Indian Institute of Technology Guwahati

- c. Smartphone
- d. None of the above

Ans: None of the above

- 6) Interactive software development is _____ in nature. (1 point) [lec3]
- a. sporadic
 - b. iterative
 - c. variable
 - d. discrete

Ans: iterative

- 7) Which of the following is NOT one of the five quality components of usability proposed by Jacob Nielsen? (1 point)
- a. Learnability
 - b. Efficiency
 - c. Satisfaction
 - d. Memorization

Ans: Memorization

- 8) Which of the following is NOT a characteristic of the Waterfall model? (1 point)
- a. Feasibility study
 - b. Learnability study
 - c. System integration and testing
 - d. Maintenance

Ans: Learnability study

- 9) 'Identify objectives' and 'customer evaluation and planning' is in the _____ and _____ quadrant of the spiral model respectively. (1 point)
- a. First, Fourth
 - b. Second, Third
 - c. Third, Fourth
 - d. Fourth, Second

NPTEL Online Certification Course
Design & Implementation of Human-Computer Interfaces

Assignment 1: Detailed Solution
Indian Institute of Technology Guwahati

Ans: **First, Fourth**

10) Which design approach focuses on what a programmer finds interesting to build?

- a. System-Centered Design
- b. User-Centered Design
- c. Utility-Based Design
- d. Participatory Design

Ans: **System-Centered Design**
